## What is Emoji ?

"Emoji (絵文字) is the Japanese term for the picture characters or emoticons used in Japanese wireless messages and webpages." -- Wikipedia

## How do I enable Emoji on my iPhone ?

- 1) Open the Emoji application.
- 2) Plug in your iPhone / iPod touch to your Mac using a USB cable.
- 3) Click Enable Emoji and wait for your device to reboot.

Then on your iPhone, go to Settings -> General -> Keyboard -> International Keyboard, scroll down and select Japanese and there you can see a new Emoji switch. Turn it on and you're done.

## System Requirements

- iPhone or iPod touch with iPhone OS 2.2 or above
- Windows XP and iTunes 8.0.2 or above

Please note that you **do not need to jailbreak** your device for Emoji to work.
