# 1 About Free Web Video Converter

## 1.1 Overview

Free Web Video Converter is a fast and easy way to convert your video files to Flash, iPhone, iPod, iPhone4, iPod4 and iPad compatible format. It's 100% free, no nag screen, no time limit, no feature limit, easy to use and can convert multiple files at once.

Free Web Video Converter is a Windows GUI interface of FFmpeg <http://ffmpeg.org>.

## 1.2 Requirements

The program runs on all versions of Windows, including 98, ME, XP, 2000, 2003 Server, Vista and 7, 32bit and 64bit.

## 1.3 What's New

### Version 1.0:

- First public version released.

# 2 Download an Installation

## 2.1 Download Full Version

You may download the software for free at page <http://www.magichtml.com/download.html>.

## 2.3 Installation

**Step 1:** Unzip the downloaded ZIP file.

**Step 2:** Launch setup.exe by double-clicking, then follow the on-screen instructions.

Please note, the software itself only runs on Windows system, it does not work on Mac and Linux.

## 3 Help Manual

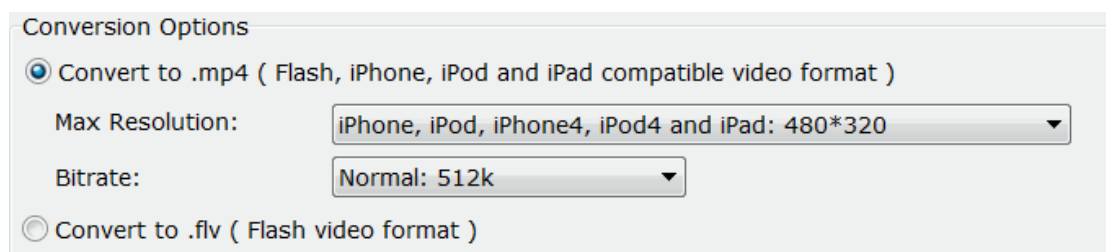

Free Web Video Converter is a Windows GUI interface of FFmpeg <http://ffmpeg.org>.

### 3.1 On Startup

At the first running, the software will ask you to download FFmpeg. You need to click the **Download FFmpeg Now** button and download it. The downloaded FFmpeg will be saved in the folder *My Documents* -> *FFmpeg*.

### 3.2 Converting Options

When converting to Flash, iPhone, iPod and iPad compatible video format, there are three options of **Max Resolution**.

**First resolution 480x320:** The converted files can work on Flash, iPhone, iPod, iPhone4, iPod4 and iPad.

**Second option 640x480:** The converted files can work on Flash, iPhone4, iPod4 and iPad.

**Third option 1024x768:** The converted files can only work on Flash and iPad.

**Bitrate:** This options determines the quality and file size of the converted video file.

**Convert to .flv:** This option will convert your video files to Flash .flv format. The .flv file can only work with Flash player.
